You are welcome to download this transcript for personal research use only.

The original copy of this section of the Directory contains a number of errors in spellings of names. In particular, there are several omission of key facts at the end of lines on pages 44 & 45 under 'Publicans'. In this transcription, I have tried to keep faithfully to the original so as not to interfere with its authenticity. Occasionally I have indicated a clear error by an italicized comment.
